**PCI Embedded announces NEW website and NEW products
Jackson, California, June 20, 2008**

PCI Embedded Computer Systems, Inc. launches a new website with an all new look, new logo, and new expanded product line. We are your full service provider of Embedded Technology with complete solutions for your Embedded Computer and CompactPCI system needs.

As a solutions provider for Congatec AG, PCI Embedded continues to distribute Congatec Embedded Computer products as well as our own NEW mini-XTX, mini-COM, and micro-COM carrier and embedded computer systems.

We distribute a complete line of Hartmann Elektronik GmbH CompactPCI systems, remote controllers, backplanes, and accessories. To complete your system needs, we offer test extenders and carriers from A-Z COM Inc. Look for our new modular 3U cPCI controller based on Congatec XTX modules soon.

We no longer sell PCI Embedded Computer Systems GmbH products. Please contact them directly for warranty support.
