

Starfabric 6 Port Switch

An ideal solution to expand your Starfabric network is by the use of a Starfabric switch. A single computer can control up to 5 cPCI card cages with a single switch.

- 30 Gbit Bandwidth (5Gbit each port)
- Can be used as a repeater
- Up to 6 switches can be cascaded in a series connection.
- External power supply (7-18V DC) including Power-LED, Status-LED
- Cable length to 13m
- No software needed
- Can be connected to all Starfabric products
- Full Metal Housing
- Dimension 190 x 140 x 55 mm
- Also available as a front plate for a subrack (3U x 16HP)
